

CONSTRUCTION NOTICE

In an ongoing effort to provide your community with safe and reliable natural gas service, this is to inform you that Washington Gas will begin construction to replace gas main and service lines in your neighborhood over the next several weeks, weather permitting. We wanted you to be aware of the construction in your neighborhood. Please note that the time needed to complete construction taking place in front of individual properties will vary, depending on conditions. We will do our best to minimize disruptions to your neighborhood. Our work crews will make temporary repairs to any excavations in the street and sidewalk. Public sidewalks and roadways will be temporarily patched and the permanent restorations will follow the completion of the project and will meet the state or local Department of Transportation specifications. Final restoration should be completed within 8-12 weeks, weather permitting. Any traffic lane closures or parking restrictions that are required will be managed through an approved traffic control plan.

If you have questions or need additional information regarding our activities in your neighborhood, please visit: <http://www.washingtongas.com> and click on “View Major Projects” or feel free to contact us by using the information provided below.

Washington Gas is committed to providing its customers with the highest level of customer satisfaction possible. Once our work is complete, please complete our Client Satisfaction Survey online at: <http://tinyurl.com/ContractorSurvey>. Thank you for your cooperation and patience as we continue our efforts to provide you with safe and reliable natural gas service.
